Profile

Motivated software engineer seeking entry level employment with a growing company. Graduated from Full-stack Academy boot-camp at University of Illinois at Chicago. Freelance experience includes developing three web projects utilizing Python 3, Node JS, React (JS, TS), HTML, CSS, WordPress, Databases and more. Excited to contribute to a team, continue learning, and add value to answer business needs with technology.

Employment

Customer Service, Hammacher Shlemmer, Niles,IL

NOVEMBER 2021 — DECEMBER 2021

Responsible for interfacing directly with customers to address their concerns, answer questions and assist with their orders overall. Addressed and processed orders via email and phone when required, to provide the best customer experience possible. Worked to achieve high customer satisfaction rates by providing optimal customer service and creative work.

Projects

Nexus, Chicago,IL

FEBRUARY 2023 — PRESENT

DEMO : GITHUB | LIVE DEMO (current)

CEO : **Jay Watson** (312) 509-0626 - jwats229@gmail.com

Responsible for designing, developing, and maintaining the official site, as well as troubleshooting and debugging issues. I also collaborate with cross-functional teams to determine business requirements and translate them into technical specifications.

Technologies : **React | Python | CSS**

FoodMix Marketing, Elmhurst,IL

JANUARY 2022 — MARCH 2022

DEMO : LIVE DEMO

COO : **Steve Megel** (630) 903-3888 - smegel@foodmix.net

Responsible for maintaining client website content pipeline using WordPress and validating that the content is in line with company design standards. Used MJML to create and update emails our clients used to send to customers. Used "Email acid" to validate mobile responsiveness of the emails sent on a variety of popular web browsers (Chrome, Firefox, IE,etc).

Technologies: **WordPress | PHP | SQL | PLUGINS**

Portfolio, Chicago,IL

DEMO : GITHUB | LIVE DEMO

This portfolio is built using React JS, Styled-CSS and Email-Js API for email services. People can see my services, projects, education, skills, languages ...etc) and also has a contact form for people to get in touch with and mobile friendly with responsive design.

Technologies : **React | CSS | Email Js | Tailwind**

Chat GPT 3 clone (OPEN AI), Chicago,IL

DEMO : GITHUB | LIVE DEMO

Chat GPT 3 interface for the front-end and a back-end using Open AI latest package! It is a -friendly site using the Open AI API and working with models that are provided like DaVinci, Ada, etc. A chat-bot interface and this guide is also intended to help build the foundations to work with prompts and outputs from the chat GPT models.
Technologies: **React | Firebase | Tailwind | Node | Python 3**

Spades-Station, Chicago,IL
DEMO : GITHUB

A search engine for the objects hosted by the Harvard Art Museums.
Technologies: **J-query | CSS | HTML**

Task-Management, Chicago,IL
DEMO : GITHUB | LIVE DEMO

Front End Web Application

A task management web app where users can read, create, delete, update a task. They can also drag and drop a specific task once created.

Technologies: **React | CSS**

Education

Web Development Certification, University of Illinois at Chicago, Chicago
APRIL 2021 — JULY 2021

Certificate in Software Engineering full-time, 13-week coding boot-camp focused on full-stack development using JavaScript, HTML, CSS, React, and Express.

Software Engineer Apprentice, Full-stack Academy, Chicago
APRIL 2021 — JULY 2021

Planned, designed and implemented full stack applications leveraging : JavaScript, Node JS, PostgreSQL, React, J-query, Bootstrap. Unit testing was also done using Jest,Mocha, Jasmine. I took ownership over the check out feature for an App called Spades-Station. Which included persisting the users cart across the application and having the user be able to purchase and remove items from their cart.

High-school, Lycée des Nations
